Rahul Patel

Backend Engineer | C# / .NET Core / ASP.NET MVC / ASP.NET Core | SQL Server, PostgreSQL | AWS
rahulpatel.bca10@gmail.com | +91 9904300297 | linkedin.com/in/rahul-patel-889459229
Total Experience: 4.5+ years | Current Location: Surat, Gujarat | Open to relocation: Bangalore, Hyderabad, Pune, Gurgaon, Mumbai, Ahmedabad

PROFESSIONAL SUMMARY

Backend engineer with 4.5+ years of hands-on experience designing, developing and maintaining enterprise applications using C#, .NET Core, ASP.NET MVC and ASP.NET Core. Strong in building scalable REST APIs, SQL Server and PostgreSQL query optimization, and integrating third-party services including payment gateways. Currently working on a large-scale LegalTech (eDiscovery) platform serving US federal agencies, where I improved email processing performance by approximately 80% - from 7-10 hours down to around 1-1.5 hours - using AWS SES, EventBridge and SQS. Experienced across SaaS and ERP products in the LegalTech, HealthTech and Education domains, working in Agile (Scrum) teams with a consistent focus on application performance, production stability and clean, maintainable code.

TECHNICAL SKILLS

Languages: C#, SQL, JavaScript

Backend / Frameworks: .NET Core, ASP.NET Core, ASP.NET MVC, ASP.NET Web API, Entity Framework / EF Core, LINQ, REST API Development

Databases: Microsoft SQL Server, PostgreSQL, Query Optimization, Performance Tuning, Database Design

Cloud / Messaging: AWS (SES, EventBridge, SQS), Redis, RabbitMQ

Integrations: Payment Gateways (Stripe, PayPal, CCAvenue), SignalR, Firebase Cloud Messaging (FCM), Vonage, Google Maps, Third-Party APIs

Frontend (Basic): HTML, CSS, Bootstrap, JavaScript

Version Control / Tools: Git, GitHub, Azure DevOps (TFS), TortoiseSVN, Postman, SSMS

Practices: Agile (Scrum), SDLC, REST API Design, Code Review, Performance Optimization, Production Support

AI-Assisted Development: GitHub Copilot, Claude AI (VS Code)

KEY ACHIEVEMENTS

- Improved email processing performance by approximately **80%** at Casepoint - reduced execution time from 7-10 hours to around 1-1.5 hours by moving to an event-driven design with AWS SES, EventBridge and SQS.
- Managed and processed datasets exceeding **100,000 records** at Zibma Infotech while maintaining application performance.
- Delivered backend features for a platform used by **US federal agencies**, including FOIA workflows and multilingual content processing.
- Integrated multiple payment gateways across products - Stripe, PayPal and CCAvenue.

PROFESSIONAL EXPERIENCE

Software Engineer — May 2025 - Present

Casepoint LLC | Surat, India

- Build and maintain backend modules for a large-scale eDiscovery (LegalTech) platform used by US federal agencies, using ASP.NET MVC and .NET.
- Redesigned the email processing pipeline from a sequential job into an event-driven flow using AWS SES, EventBridge and SQS, reducing a full run from 7-10 hours to approximately 1-1.5 hours - an improvement of around **80%**.
- Develop backend features for FOIA (Freedom of Information Act) workflows and multilingual content processing.
- Optimize SQL queries and refactor legacy code to improve scalability, maintainability and system performance.
- Contribute to platform modernization and migration work by enhancing existing modules and building new functionality.
- Work in an Agile (Scrum) team using Azure DevOps - sprint planning, backlog refinement, daily stand-ups and code review - with product, QA and engineering.

Junior .NET Developer — Feb 2024 - Apr 2025

Vision Infotech | Navsari, India

- Developed and enhanced backend features for enterprise applications using .NET technologies.
- Gathered requirements directly with clients and internal teams, and delivered the corresponding technical solutions.
- Implemented new modules, resolved production issues and improved application reliability.
- Carried out database enhancements and query optimization for more efficient data processing.

- Handled maintenance, debugging and application support.

.NET Developer Dec 2021 - Jan 2024

Zibma Infotech | Surat, India

- Built ERP web applications used by educational institutions.
- Processed and managed datasets exceeding **100,000 records** while maintaining application performance.
- Developed reporting modules covering multiple user roles and business workflows.
- Integrated third-party services including payment gateways and Google Maps.
- Optimized SQL queries and resolved production issues to improve stability and performance.
- Worked with cross-functional teams to deliver new features and enhancements.

PROJECTS

VCDoctor - Telehealth Platform

ASP.NET MVC (Razor Pages), SQL Server, SignalR, Firebase

- Integrated Stripe and PayPal payment gateways.
- Integrated Vonage for real-time video consultations.
- Built backend APIs supporting both web and mobile clients.
- Implemented one-to-one messaging with SignalR, and Firebase Cloud Messaging for call notifications and multi-device signalling.
- Improved application reliability through testing and backend optimization.

Zibma School ERP - Education Management System

ASP.NET Web Pages, .NET Core (Web API), SQL Server, Firebase

- Developed ERP modules supporting multiple educational institutions.
- Built .NET Core APIs and integrated them into an existing ASP.NET application.
- Built custom reporting features for different user roles, improving data accessibility and operational efficiency.
- Integrated Google Maps, and PayPal and CCAvenue payment gateways.
- Implemented Firebase notifications for attendance, fee and announcement updates.

HRMS - Human Resource Management System

.NET Core, Angular, SQL Server

- Developed employee management and payroll functionality.
- Optimized SQL queries to improve data retrieval performance.
- Implemented pagination to reduce load times and improve user experience.
- Collaborated with frontend developers on API integration.

EDUCATION

Bachelor of Computer Applications (BCA) | Veer Narmad South Gujarat University (VNSGU), Surat, India | 2017 - 2020

ADDITIONAL INFORMATION

Domains: LegalTech (eDiscovery), HealthTech (Telehealth), Education (ERP). **Languages:** English (professional working proficiency), Hindi (professional working proficiency), Gujarati (native).
